

# KEN ALGER DIMAYMAY

Software Developer

algerdegdimaymay@gmail.com | [linkedin.com/in/ken-alger-dimaymay](https://www.linkedin.com/in/ken-alger-dimaymay) | 09212662965 | Cebu City, Philippines

## EDUCATION

**Bachelor of Science in Information Technology**

Cebu Institute of Technology – University

*Graduated: December 21, 2024*

## PROFESSIONAL EXPERIENCE

**Web Developer / Software Developer** | Myvan Holdings Inc.

*January 2025 – Present*

**Tech Stack:** ASP.NET Core Web API, Angular, C#, TypeScript, NG-ZORRO, React Native, React, LINQ

- Developed and maintained ERP modules supporting procurement, finance, sales, manufacturing, and real estate operations.
- Built Purchase Request (PRF) and Subject for Liquidation (SFL) workflows, including approval routing, fund tracking, and reporting processes.
- Developed CRM web and mobile applications covering lead acquisition, opportunity management, quotation generation, and KPI monitoring.
- Developed manufacturing workflows that convert sales orders into job orders while managing material allocation and inventory availability.
- Built broker accreditation and real estate reservation systems with approval workflows, payment terms management, and transaction tracking.
- Maintained and enhanced Inventory Management modules (SAP ERP), including MRIS and Stock Transfer Slip workflows.
- Improved Purchasing Module performance through LINQ optimization and backend pagination.
- Enhanced Sales Order processing to support different company business rules and workflows.

**Web Developer / Software Developer** | Semo-network

*May 2026 – Present*

**Tech Stack:** React, React Native, Next.js, Node.js

- Developed and maintained BetterFlags, an e-commerce platform with integrated sales reporting, analytics, and order management.
- Implemented frontend and backend features using React, Next.js, and Node.js.
- Improved user experience through responsive UI development and performance optimization.
